Agentic BI: Text-to-SQL Analytics

The Agent is securely connected **only** to the masked Gold Database. Ask questions in natural language.

💡 Suggested Analytics Questions (Click to Ask)

What is the total order amount for each category?

Which category has the highest average order amount?

How many orders were placed in each category?

What is the average order amount per customer email?

What is the total order amount per customer name for each category?

What is the total order amount for each category?

Total order amount by category

Category	Total Order Amount
Apparel	3,715.72
Electronics	3,900.64
Home Goods	2,869.68
Toys	2,122.74

These totals are calculated by summing the `order_amount` for each distinct `category` in the `transactions` table.

How many orders were placed in each category?

Orders placed per category

Category	Number of orders
Apparel	12
Electronics	15
Home Goods	12
Toys	11

These counts are based on the `transactions` table, grouping by the `category` column.

What is the total order amount per customer name for each category?
